

Corporate Partner - Legal Sector – SME / Mid-Market Focus

Jurit LLP is a boutique law firm consisting of experienced, top-quality lawyers. We are a virtual firm offering total flexibility, autonomy and generous fee-sharing arrangements to our lawyers.

This opportunity is strictly for established lawyers seeking to join Jurit LLP as a Partner and operate their own practice within our platform. It is not a salaried position.

We are expanding our Corporate team with a clear focus on the SME and mid-market sector. This opportunity is designed for established Corporate Partners who advise owner-managed businesses, growth companies and private shareholders — and who want a more commercially intelligent platform.

If you originate and manage your own clients, why operate within a traditional structure where overhead and profit share dilute your earnings?

The Financial Model

We operate a transparent consultancy-based structure:

- 80% of billings collected as standard
- 20% fee allocation on internal referrals
- Equity participation through profit share units
- Professional indemnity insurance included
- Full infrastructure and compliance support provided

Your Practice

We are particularly interested in partners with experience advising:

- Owner-managed and family businesses
- Private company M&A (buy-side and sell-side)
- Shareholder exits
- MBOs / MBIs
- Growth capital and investment transactions
- Strategic acquisitions

What You Bring

- 10+ years PQE (England & Wales qualified)
- An established portable client following
- Strong SME / mid-market corporate experience
- A commercial and growth-focused mindset
- Ability to collaborate within a partner-led environment

What You Gain

- A high-margin earnings structure
- Control of your client relationships
- Reduced internal politics and overhead drag
- Access to experienced colleagues across complementary disciplines
- Professional support across finance, IT, compliance and marketing
- Flexible working model with City meeting facilities available
